The KS/AIDS Foundation of Houston proudly presents its second PlaySafe Calendar. The PlaySafe program is part of a national effort of many organizations to combat the spread of AIDS through a healthier lifestyle.

The following is a general guideline of that program:

- Risk reduction by changing your sexual habits. Avoid the exchange of body fluids or lessen the exchange. Use preventative measures such as condoms.
- Limit the number of sexual partners and encourage good communication between selected sexual partners.
- Practice good hygiene before and after sex.
- Exercise, get adequate rest and practice good nutrition to stay healthy.
- Reduce stress and keep your mental state in well being.
- Awareness Education on Alcohol and Drugs and avoid misuse.
- Stay aware of the current health crisis.

The men featured in the calendar courageously have come forth in an effort to act as role models. They are committed to the practice and promotion of PlaySafe for a healthier life. They offer us hope and inspiration that an alternative lifestyle can be fulfilling, erotic, and sensual.

Quotes used in the calendar, from some of the finest minds in history, offer us fortitude and advice. Although AIDS is a new crisis, the human spirit always has overcome crisis through its intelligence and wisdom.

The PlaySafe program is one of prevention. In participating, you show you care about your health and the health of others. Thus, you contribute to a healthier community. The bottom line being, to love one another.
