Aquarius (January 20-February 18) A whirlwind of social invites should have you feeling almost intoxicated. Being so popular and in demand takes a lot of hard work. A business deal that fell through previously is about to get a second chance. Move slowly on this though. A bit of "found" money brightens your mood this weekend.

Pisces (February 19-March 20) Five out of seven days this week look pretty solid for you. Only Saturday and Thursday appear to hold any major hassles and even those won't last too long. Your creativity level should be quite high. It would be a shame to let this pass. Call up an old friend and take him out for dinner on Sunday.

Aries (March 20-April 19) A relationship that had seemed like a lost cause makes a surprising turn about on Wednesday. Finances look fairly strong at this time, but you still need to avoid buying on impulse. Physical energies peak on the 28th-29th. As the month closes, you're in a strong bargaining position. Just turn on the charm.

Taurus (April 20-May 20) Although frustrations abound as the week begins, all should be quite calm by Sunday afternoon. Tuesday looks like the best time to ask for that raise, but do so diplomatically. It's nice to see you're counting life's smaller blessings for a change. Get ready for an intense yet ultimately rewarding February.

Gemini (May 21-June 21) Watching what you say can prevent trouble from cropping up. Don't argue with that stubborn roommate, because you just can't win. Spend Saturday off by yourself in a quiet space. Financial matters look a bit dicey, so pinch those pennies Gemmy. You'll need that awesome sense of humor on Monday.

Cancer (June 22-July 22) It's going to be a fast moving week, which should help to blur some of the speed bumps along the way. Cut down on beverages containing caffeine. Your nerves are wound up enough as it is. Treat yourself to a fun night out on Saturday (dinner & a movie should do it). Redecorate your place a little at a time.

Leo (July 23-August 22) Take care not to brag or embellish any stories, or it could end up putting you on the spot. A getaway this weekend is both deserved & needed. Although your love life seems a bit unsettled now, it'll calm down quite a bit over the next month. Wait two more weeks before purchasing that sleek new computer. OK?

Virgo (August 23-September 22) Don't be pressured into making a commitment by that current squeeze. Take your own sweet time, Virgo. Special gifts from a parental figure bring you much joy. Since you've been wanting to go back to school, why not enroll now? Your energy level will increase by cutting out some of those carbs.

Libra (September 23-October 22) It's likely that you'll feel ultra sensitive and quite emotional as the week begins. Allow the luxury of having a good cry to release some of the pressures. Tensions at home aren't helping much. It might be a good time to look for a new place to live. Don't let this frighten you, Libra. Take a big bold step!

Scorpio (October 23-November 21) A couple of recent financial setbacks will take time to recover from. Don't become disheartened or panic, Scorp. Everything will be fine in a few weeks. Try jogging on grass or sand to prevent potential knee injuries. Those crazy dreams may hold the key to important information. Try monitoring them.

Sagittarius (November 22-December 21) The amazing financial turnaround that began two weeks ago shows no signs of ending. Treat yourself to something expensive this weekend. A hot & heavy encounter on Sunday will leave you breathless and yearning for more. It's about time for new luggage. That old set belongs in the "Smithsonian".

Capricorn (December 22-January 19) The phrase "busy as a bee" pretty much sums up the coming week for you. There won't be too many moments to spare, Cuppy. Try not to overextend yourself at work. That could lead to a burnout, and they're tough to recover from. Keep that ego on the back burner when dealing with a co-worker.
