Capricorn (December 22-January 19) You'll feel absolutely jet-propelled on Friday, but you must avoid burning out over the weekend. You're a person, not a machine, Cappy. Don't allow the boss's sour mood to spoil an otherwise wonderful day on the 14th. That dog of a stock will soon reach the break-even point. That's the time to sell.

Aquarius (January 20-February 18) Man the torpedoes, full speed ahead might work for the Navy, but not where your career is concerned. Don't be reckless and impatient over a stalled business project. Forcing the issue will only bring trouble. Study that game plan you worked up last fall, and then fine-tune it a bit.

Pisces (February 19-March 19) Remain in the eye of that storm, Pisces. It's the safest place for you right now. Don't be forced to take sides, no matter how great the pressure. Monday finds you on the go from sunrise to sunset. You're finally making up for lost time. Keep on that current course and you can't possibly go wrong.

Aries (March 20-April 19) The key words to remember this week are "new" and "unexpected." Out with any archaic and outmoded concepts. Why take a bus, when you can fly? Be the go-getter you were born to be. It's a role you play especially well. One word of caution though: Be free with advice, but not with your money.

Taurus (April 20-May 20) Spending too much time searching for a needle in a haystack will prove quite frustrating. Stick with what's tried and true and just play in your spare time. A family member could be pressuring you to make a major life change. Only go along with this if it feels right. Stand your ground at home.

Gemini (May 21-June 21) If every idea that crossed our minds were a \$10 bill, you'd be financially set for life. Alas, this is not the case. You are quite brilliant, but much of that mental prowess isn't in clear focus. Learn how to organize your thoughts (and life) more efficiently. There are classes available on this very subject.

Cancer (June 22-July 22) Spending money is no way to get over a broken heart, but it beats sitting at home crying the blues. Inject some of that pain into redoing your place. It won't take much money and you've got lots of nifty ideas. Those headaches are stress-related, Cancer. Learn how to relax and unwind at the end of each day.

Leo (July 23-August 22) Let all of that hard work and results speak for itself. There's no reason to blow your own horn, Leo. People are likely to get the wrong idea and you'll be perceived as pompous. Your financial base looks solid and shouldn't be tampered with. Take off on Sunday and don't tell anyone about your plans. That's an order!

Virgo (August 23-September 22) You'll remain the sole voice of reason in an otherwise chaotic mess of a week. How quickly you tackle the damage patrol will determine the extent of your success. Taking the high road where an ex is concerned is the only way to go. It's time to be more accessible to your employees.

Libra (September 23-October 22) Loved ones will understand your mood swings even less than usual. If possible, keep to yourself over the weekend, if possible. Sleep patterns continue to be disruptive. A lack of cash won't help your frame of mind on Tuesday. It pays to be open and honest with a supervisor, even if it means disagreeing.

Scorpio (October 23-November 21) It will take more than having all of the facts and figures to win over a new client. Tap into your warm and funny side, Scorp (yes, it does exist). You tend to come off as cavalier at times, without meaning to, of course. Try laughing out loud just for the fun of it. Your inner child needs to get out of jail.

Sagittarius (November 22-December 21) The potential for making more money is right around the corner. It's just that you've been in a cash crunch and it has you spooked. Let go of the fear, Sag. It just doesn't suit you. Creative writing begins to pay off handsomely next week. Just watch that spending and hang on a while longer.
