WELCOME

to the new Gift Catalog edition of VAGABOND – the catalog unusual.

Sweeping changes are taking place so that we can serve you better. Instead of one big Vagabond containing all our items, we are publishing smaller, more specialized issues. This enables us to bring you new items as fast as we find them.

This issue features GIFTS – for yourself and your friends. In the weeks to come, Vagabond will bring you other specialized issues. Coming are issues devoted to: (1) clothing; (2) men's jewelry and cosmetics; (3) photo and art items; (4) books and magazines; plus other new items.

Many of the items in this issue are presented for the first time and we are anxious to know your reaction. When we introduce an item, we have no idea whether it will be one that sells or one that sits on the shelves. Therefore, we have to be cautious when we order our initial supply. If it catches on, we rush to replenish our stock and some of you may be disappointed by having to wait for your order.

However, if we go to the other extreme and buy a tremendous initial supply, we may sell only a few. If we have our money tied up in

items of this sort, we would be of no service whatsoever to you. We do our best to fill your orders the day they are received; but sometimes we fail. If so, we ask for your patience. Our staff will do its best to get those "out-of-stock" items to you as quickly as possible.

And, **THANK YOU** for your wonderful response to our new Vagabond emblem shown below on our ring. Because of your enthusiasm, we are having the following items manufactured: the Vagabond emblem on a neck chain, on tie clips, cuff links, and even an embroidered emblem you can sew on your blazer or sweater. These are just a few of the exciting new items we will be bringing to you in the next months. Watch for them!

NOTICE

We do not solicit the patronage of minors. Parents who find their minor children receiving our literature are asked to notify us so we may remove that name from our mailing list.

If you are an adult with no interest in our services, please let us know. We shall be happy to remove your name from our files.

HOW ARE THESE ITEMS MADE?

Actually, it is very simple. For example, the handkerchiefs. A high-quality handkerchief is taken and placed under a silk-screen frame. A special ink is applied to the screen which contains the design. The screen is brought into contact with the handkerchief and the design is printed on the handkerchief. This is the same process used by many persons to make their own Christmas cards.

As with any hand process, the quality of the finished job depends upon the skill of the operator. And, only the best-quality ink is used to guarantee a long life for the design that will withstand many launderings. After you have received your first order, we think you will agree with us that this is the finest work of this type we have seen.

WHAT ABOUT THE SIZE OF THE DESIGN?

The same design is often available in several different sizes, depending upon the item on which it is to be used. For example, a small design is used to fit on the handkerchief. A larger version is used on the T-shirts. And a still larger version is used on the sheets. This gives you the maximum effectiveness of the design.

WHAT ABOUT THE COLOR OF THE DESIGN?

All designs are produced in a variety of colors. Because of the endless combination of design and color, we cannot provide a specific color. It would complicate matters fantastically. Rest assured that you will receive a beautiful design in a tasteful color.

These Decorations Command Interest

In these plaques the sculptor successfully captured the restrained quality of youth while still portraying a striking realism. There is no stylization. The reclining figure suggests a contemplative, almost resigned feeling quite different from the amused and presumably certain attitude of the standing figure. Together they compliment each other well. High relief in the castings allows the use of lighting to create a variety of moods.

We feel justly proud of the quality represented by these items. Hand detailing is used extensively after casting. Finishes are built up of at least four coats and between these coats we rub and rub and rub. Each plaque is 12 x 24 inches and weighs about 8 pounds.

The optional fig leaf on the above plaques is detachable. Concealed magnets hold it in position.

Approximately twenty-two centuries ago an unknown Grecian sculptor created this statue which depicts a handsome youth, who, drunk with wine, had fallen asleep on a panther skin. Encircling his head he sculptured a wreath of ivy berries and leaves.

Our copy of this statue is ideally suited for use as bookends, but is equally attractive when displayed singly. This statuette is 9 inches high and weighs 5 pounds. Detachable fig leaf is held in place by concealed magnet. Both the statuette and plaques are completely finished to permit display without the fig leaf.
