By CAROL HENLEY

LESBIANS NEVER had it so good! Everyone is harping about the poor male homosexual and blasting the faggots queens, pansies and queers in all the papers and magazines. Even in Washington D.C.: and the F.B.I., the local and state legislatures and governmental agencies, social and church groups take a crack at the male degenerate . . . but, the Lesbians go right along having a ball and mixing in society as if they didn't exist. In fact, as far as the statutes and laws in any of the states of the union, and that included the new states that have been added, there is not *one* single thing in any court of law that mentions the existence of a woman homosexual. There isn't any penalty written that would include her crime against society for molesting a child or inducing a minor into sexual acts of deviation . . . by court of law the Lesbian does not exist!

There are probably more active lesbians in society all over the world today than there are male deviates . . . and Kinsey and other statisticians have proved there are certainly an abundance of them like *one of three men are homosexual*, or have at one time practiced it, but how are you going to check on women?

Everyday, since time began women have been running up to each other in public places and kissing one another; hugging and embracing each other. They walk hand-in-hand or arm-in-arm down streets. They *kiss hello* and they *kiss goodbye*. They compliment each other on their lovely hats and dresses. Women actually dress for other women. Men seldom know what a woman wears unless he has paid for it and thinks it's *too* much, then he wants to see the *damn thing*. But a man only knows if a woman looks nice and is attractive to him in other ways besides clothes . . . but a woman can tell you what another woman was wearing on the street or at a party from the top of her head to the tip of her toes . . . and, in *detail!* Just imagine if men acted like women? And the few who have the tendency to be feminine enough to express themselves in public toward another attractive man or male friend is banned and tarred-and-feather *out* of society as a queer and undesirable person who should not be allowed in society!

Women are a queer lot! And *they are queer*. Much more than the average person on the street would believe them to be. The sweet housewife who is head of the P.T.A. may be as big a lesbian as the ones who you see driving trucks who flaunt their masculinity in peoples faces . . . the housewife just isn't as obvious, and for obvious reasons she hides her quirk and her lesbian activities under some other lovely lady's bed pillow. The majority of lesbians are *not* masculine in appearance or actions.

Lesbianism that doesn't start in a female very young, or is introduced to it in adolescence at school, is often latent in a woman, and in many cases doesn't even project itself until after a woman is married and has normal sexual relations with her husband and finds that she is not realizing the full pleasure and satisfaction from her husband's efforts to please her. This even becomes more important to a woman after she has had one, maybe two or more babies. The woman just is not getting the pleasure and sexual satisfaction from the male that she needs. So, in discussion with other women concerning her problem she finds that she

There is not as much fuss made about Lesbians as homosexuals. Possible because most women are more discreet about their degrading practices.

LESBIAN WOMEN

(Continued From Page 17)

is not the only woman who is suffering from sexual incompleteness in her relationship with their husbands.

In many such cases there have been *sex clubs* organized where married couples get together and change husbands and wives, have gang-balls and perform sex-shows and participate in sorted and varied perversions. But this is not the answer of the thousands of unsatisfied women who love their husbands and would not think of sharing him with another woman; let alone giving herself to another man for sexual satisfaction, who nine out of ten times is no better than her own husband. In most of these mate-sharing parties it's the women who give little *homosexual performances* for the men and end up getting complete satisfaction from each other.

So, there is an amazing number of *secret* women's clubs springing up all over the country. They are very secret organizations which may or may not operate under such names as bridge clubs, sewing circles... etc. But men are not allowed and... for what is taking place in these little afternoon or evening sessions *men are not needed!*

One very dignified woman, happily married with two sons in the Service, told me that these lesbian clubs had not only saved her marriage, and made it a better one, but that it had also saved her *sanity*. She told me: "All my married life and through the birth and raising of two wonderful boys I thought there was something wrong with *me* sexually. I just never reached the proper climax with my husband. I love him to death and he has always told me I was the most perfect of lovers. I was sick for something *more* from him—I was always left high and dry and I finally became a nervous wreck. I went to doctors and they always said I was a *normal healthy woman* and that nothing was wrong with me. Most doctors treat a woman's sexual desires and needs as something that is all in their head and you go away thinking *maybe it is...* that worries you... But it doesn't stop the nervousness and the frustration that develops to know that you are normal and healthy... but maybe *crazy* too."

This lady was anxious to talk about her sex life and her *sex club*. She told me that she didn't believe that what these women who belonged to her club

did *was* perverted or wrong. She swore that every woman in the club was happily married, and more so since joining the club and its activities. What these women practiced and thoroughly enjoyed in having *sex together* was really just keeping them sane and healthy so that they could satisfy their men at home. After a session of perversion and gaining satisfaction from women at the club (whom she told me were much more inventive, imaginative, and uninhibited about sex than men were) they could all go home and sleep with their husbands, have sex, and really enjoy it more. In some cases the women were able to reach satisfaction and have orgasms with their male-mates when they never had been able to before. Both the husband and the wife were happy. Of course the husbands know nothing of their wives' extra-curricular activities.

My informant on the sex clubs for women told me that it is very rare for any two women to form an emotional union strong enough to break up their homes and leave their husbands.

Men's inability to satisfy women completely in the sex department is given as the reason for these sex clubs growing in number. In many cases this may be true, but women who will talk freely about their sexual relations with other women will admit that women are freer thinking in letting themselves *go*—in being inventive in the sex act than men are. Women like to be with other women in every other social activity, so it's only natural that they would finally get around to sex in numbers together... and with the social set-up as it is, who suspects a group of respectable women getting together for a hen party?

In spite of what my lovely lady whom I interviewed said, many warm and close and jealous relationships between women do take place and go the limit. Some to just the point of leaving the club after they have found each other and then they drop out of the club because one becomes violently jealous of her preferred one being loved and made love to by the other women of the club. So they have their affairs privately and not in the club group spirit.

Sometimes the club brings in the real short haired DYKE to give them a new kick or a thrill. These women who face the world with their lesbianism on their shoulders are sometimes such great innovators and so sincere about their love-making that

the women can never go back to the heterosexual relationship with their husband or male lover. They get hooked on the thrill of perversion like a addict to dope and they go further into the realms of exploring the jaded side of sex. The next, inevitable, sordid step is that they leave the club, husbands and families to go out into the gay world where women are men and procure young girls for themselves and prostitute their bodies to men for money to support the thrilling new taste they have developed for pure eroticism and degeneracy in sex.

Psychiatrists and social workers who have known about these clubs and their operations have said that they spring into being because of the constant tension society is living under the present times of unrest and insecurity. That may be a good explanation for the time being and the unknowing unread public at large. But women have had female lovers since time began.

Most of our culture has originated in the East. The rich merchants and Princess of commerce in China and Japan who had many wives and concubines could not possibly share his affection and virility with all his women as he usually had one favorite at a time. The many women of the household, aware of this and the fact that their time as the man's favorite was over, invented many exciting means of having sex among themselves for their pleasure and comfort. Some of these ancient tricks are now being sold undercover in this and other countries and are still being used by the women of the East in place of a male sexual companion. They are ingenious and clever devices and it is said that once a woman has used the Eastern women's homosexual 'sex-kits' they don't care if a man ever touches them again.

Yes, the woman homosexual is a caution . . . because who can tell her from other women if she cares to not let it be known that she would rather love another woman than a man.

Many of our great beauties of society, stage and screen who are the sex symbols of our era are merely 'impersonating' their sex for money and fame. Seven out of ten glamorous women are what doctors call "secondary lesbians." They accept the affections and the money men can give them . . . but their hearts belong to other beautiful women . . . not to men!

You surely could call these women members of the filthiest sorority in the world! ●
