

Notes on scanning the LOAF scrapbooks.....

This is a large project (over 30 albums 2"-3" thick) so some concessions were made to

The amount of work and pages of the resulting pdf files--

Almost every page of photos was scanned,

[Except those that were too dark or not of people,

Like shots of scenery, animals, etc]

And not every page of the newsletters was included,

As from the 1990s on a number of pages of each

Issue was of non-local content, like national clippings,

And health and activism articles, Ads for books, etc
